BUILDING AND FURNISHING WITH RECYCLED PRODUCTS

Visit the NJDEP's Buy Recycled website at www.recyclenj.org or call 609-984-3438 for more information on recycled products and "green" building.

Today, more and more consumers are demanding environmentally responsible products, including the materials used to build and furnish their homes and businesses. The use of recycled building products and furnishings in construction and renovation is an integral part of this "green" building movement.

Recycled building products and furnishings are:

- ☐ High quality
- ☐ Readily available
- ☐ Affordable
- ☐ Diverse

Did You Know...

- ☐ Recycled products meet the highest quality standards. Increased demand and major changes in technology have resulted in improved products that are comparable in quality to products made with virgin materials.
- ☐ Recycled products are available in major retail stores, building supply centers, hardware stores, garden centers, through catalogs and over the Internet.
- ☐ Recycled products often cost less than products made with virgin materials! Consider life cycle costs for higher priced items.
- ☐ There are over 1,000 different types of recycled products on the market!

Recycled products come in many shapes, sizes and forms, including:

- ☐ Ceiling panels
- ☐ Concrete blocks
- ☐ Carpeting
- ☐ Ceramic tile
- ☐ Paint
- ☐ Fiberboard
- ☐ Asphalt pavement
- ☐ Mulch
- ☐ Wallboard
- ☐ Insulation
- ☐ Rubber flooring
- ☐ Plastic lumber
- ☐ Steel studs and framing
- ☐ Furniture
- ☐ Roof shingles

The use of recycled content products is included as a recommended building practice in the U. S. Green Building Council's Leadership in Energy and Environmental Design (LEED®) Rating System and can fulfill credit requirements needed for LEED® certification.
